PREFACE

This Publication is being brought out in the 50th year of our independence. This publication is in three volumes; Vol. I, Vol. II and Vol. III. The present volume gives detailed information about the number of schools of various categories, State-wise and UT-wise after independence.

After independence State Reorganisations Commissions were set up to determine the territorial jurisdiction of States/UTs while some UTs were upgraded to States. This has resulted in metamorphic changes which need to be taken into account. The period after 1950-51 to 1992-93 has been divided into three sub-periods from (i) 1950-51 to 1958-59, (ii) 1959-60 to 1969-70 and (iii) 1970-71 to 1992-93 in order to have comparability between the States during these periods. It has been a very tardy and laborious work attempted by the staff and officers of Statistics Division and CMIS Unit. I shall be glad to place on records my appreciation especially for officers viz Dr. R.S. Thakur, Joint Director (Plg), S/Shri R.C. Srivastava, Assistant Director, S.S. Malkani, AEO, S.C. Gupta and Subhash Chander, AEO, Krishan Kumar and Om Prakash, Programmers who have made it possible to bring out all Statewise data of those years at one place.

INTRODUCTION

This publication presents number of recognised schools in India since independence i.e. from the year 1950-51 to 1992-93. The number of recognised schools has further been distributed according to States and Union Territories.

2. At All India level, number of Primary/ Junior Basic Schools has trebled from 209671 in 1950-51 to 571248 in 1992-93. In case of Upper Primary/Middle/Senior Basic schools, these have increased from 13596 in 1950-51 to 1,58,498 during 1992-93. The increase has been more than 11 times during this period. Further total number of High/Post basic/Hr.Secondary/Senior Secondary schools has increased by 9 times during the same period from 7416 during 1950-51 to 84608 during 1992-93. This astonishing increase is partly due to introduction of 10+2 system of education by the States in different years and partly due to the expansion of schooling facilities to make these facilities available nearby and also in order to cover uncovered areas/habitations.

3. Sub-Table I below indicates the number of schools of different types from the year 1950 to 1992.

Sub-Table I

1992	571.25	158.5	84.61	814.36

Graphic presentation in respect of growth of recognised schools of different types with quinquennial breakup is given in the next page. In case of all Schools, it will be observed that there is a constant increase in the number of schools which is indicative of the fact that there has been considerable expansion of schools in the country.

For the years 1971-72, 1972-73,1974-75 and 1975-76 only selected data was processed in order to clear the arrears. Hence number of institutions for girls are not available separately for these years. In some cases, if we see the number of schools yearwise, the total number of schools has increased but the number of schools for girls has decreased At the primary and upper primary schools in rural and thinly populated areas, the primary schools meant for girls slowly gets converted into co-educational schools for want of adequate number of girls becoming available. Some times there are problems of classification of schools while some times the number of schools upgraded are considerable when compared with the schools newly added during that year. These factors do play a definite part in increasing/decreasing the number of schools. The sexwise number of primary schools and upper primary schools has been depicted in the two graphs on the next pages.

* Figures are not available separately. Same are included in the respective years under High schools.

5. In the case of High and Higher Secondary Schools separate figures for the years 1970 and 1975 are not available because these have been included in high/post basic schools. Thus the number of schools for these years has abruptly increased. The total number of high and higher secondary schools have been depicted in the graph given on the next page.

6. The entire period from 1950-51 to 1992-93 has been divided in three sub-headings: First, from 1950-51 to 1958-59 when there were 33 States/UTs in the country; Second, from 1959-60 to 1969-70 when there were only 28 States/UTs in the country and Lastly, from 1970-71 to 1992-93 when there are 32 States/UTs. Information about number of schools in these different States/UTs has been presented yearwise/State-UTwise to facilitate easy comparison.
